New people affected 4/29/2020
Please remember each one is a person not a number

New cases in Franklin Township: 25
Total cases in Franklin Township: 915
Sadly new fatalities reported in Franklin Township: 2
Total fatalities reported in Franklin Township: 77

An 89 year old who passed away on 4/16.
A 35 year old who passed away on 4/17.
The same information by percent.

I’m sorry for the next graph, it is chilling. It shows the percentage of those in Franklin who die by age group if they test positive. In other words, if a person in a certain age group tests positive in Franklin what is the percentage they will die.
My typical disclaimers and sources

I do not answer questions about location of the positives. I do not have that information. For the reasons why please see my post on March 31
http://mayorkramer.com/files/mar31.html#4

I do not have information on recoveries in Somerset County. I too have asked that information and I don’t get it.

Please see the Somerset Co. status map.

We have gotten more specificity on why the Twp.’s count of the number of total cases for Franklin differs from the county cases on their map. If an infected person who lives in Franklin moves to a care facility out of Franklin, then the county does not include them in the total number. We do.

The State dashboard can be found at https://www.nj.gov/health/cd/topics/covid2019_dashboard.shtml
