We have not had this low a number since March 27th.

Comparing cases, and deaths to the population distribution.
My typical disclaimers and sources

I do not answer questions about location of the positives. I do not have that information. For the reasons why please see my post on March 31: http://mayorkramer.com/files/mar31.html#4

I do not have information on recoveries in Somerset County. I too have asked that information and I don’t get it.

Please see the Somerset Co. status map: https://www.co.somerset.nj.us/government/public-health-safety/health-department/services/disease-prevention/covid-19-status-map

We have gotten more specificity on why the Twp.’s count of the number of total cases for Franklin differs from the county cases on their map. If an infected person who lives in Franklin moves to a care facility out of Franklin, then the county does not include them in the total number. We do.
