**Daily Cases**

The chart shows the number of daily cases over time. The peaks indicate higher numbers of cases on specific dates.
The latest reported deaths were on 5/12
My typical disclaimers and sources

I do not answer questions about location of the positives. I do not have that information. For the reasons why please see my post on March 31

http://mayorkramer.com/files/mar31.html#4

I do not have information on recoveries in Somerset County. I too have asked that information and I don’t get it.

Please see the Somerset Co. status map.

We have gotten more specificity on why the Twp.’s count of the number of total cases for Franklin differs from the county cases on their map. If an infected person who lives in Franklin moves to a care facility out of Franklin, then the county does not include them in the total number. We do. If someone who lives in another town becomes infected and then comes to Franklin, we do not count them. The county does.
The State dashboard can be found at https://www.nj.gov/health/cd/topics/covid2019_dashboard.shtml
